

# Nobody Else

Tone Stith

I'm quiet, you're quiet too, baby  
But there's another side of me  
That I wanna show you, show you  
In the nighttime, or it really doesn't matter to me  
But I want you, so desperately  
Do you know what I mean baby

I, I wanna take you there  
If that's alright with you  
Ohh I wanna do some things  
Nobody else can do, nobody else can do  
Nobody else can do, aw yeah

I'm curious, to know what it feels like, baby  
Lost in your love, it must feel so amazing  
Let me take my time on you baby  
We ain't gotta rush, we can go slow if you want to  
I'm gon put your mind in different places  
Make your body and soul feel brand new

I wanna take you there baby  
If that's alright with you  
I wanna do some things baby  
That nobody else can do  
Nobody else can do  
That nobody else can do  
Nobody else can do
