

## Smoking In The Park (Paradise)

Tone Stith

Smoking in the park, underneath the trees  
Perfect time for me to set you free  
Underneath the stars, feels just like a dream  
A dream, a dream, a dream

Paradise  
I'll take you wherever you wanna go  
Confide in me, I can be your therapy  
All the weight on your heart, you can lay it on my shoulders  
You can show me all your flaws and insecurities

Yeah, we can't see the haters, we're too high up here  
And if you're free, you can pull up on me later at our spot

Smoke one in the park, underneath the trees  
Perfect time for me to set you free  
Underneath the stars, feels just like a dream  
A dream, a dream, a dream

We can't see the haters, we're too high, oh, get too high  
And if you're free, you can pull up on me later at our spot

Smoking in the park, underneath the trees  
Perfect time for me to set you free  
Underneath the stars, feels just like a dream  
A dream, a dream, a dream
