

Something

Tone Stith

Falling too fast
Clearly rules don't apply
Can't believe that I just met you
You got me here
Watching minutes past by
Wondering when to expect you
There you go
Is this a dream?
Looking like every picture
That I've seen
Of you before
I've seen it all before

Now that it's over
I should of known better
Then you think
This is real
And you could be mine
Should of known better
Slowed it down
Cause I feel
You needed time

But I kept saying
This could be something
This could be something
This could be something
This could be
This could be
This could be something
This could be something
Well maybe this is nothing at all
At all
At all
Well maybe its just nothing at all
At all
At all
I guess that's what we make it

There you go
Is this a dream?
Looking like every picture
That I've seen
There you go
Is this a dream?
Looking like every picture
That I've seen

I should of known better
Then you think
This is real
And you could be mine
Should of known better
Slowed it down
Cause I feel
You needed time

But I kept saying
This could be something
This could be something
This could be something
This could be
This could be
This could be something
This could be something
Well maybe this is nothing at all
At all
At all
Well maybe its just nothing at all
At all
At all
I guess that's what we make it
