

Colourblind

Tones And I

Sweet talks on a Sunday afternoon
Never hold you down, all the wilds and the truth
And I know that you'll remember me oh back in time
But you stay on my, oh you stay on my mind

Wild weeks no sleep, now you're colourblind
But you're always there to share a smile
And I know sometimes get rough, you feel like you've been left
behind
But you stay on my, oh you stay on my mind

But you stay on my, oh you stay on my mind
But you stay on my, oh you stay on my mind
But you stay on my, oh you stay on my mind
But you stay on my, oh you stay in mind

Hot nights, rave lights, we sit outside
But we see more than just the stars
We're all caught up in our worries, we forget just where we are
We forget just where we are

Big steins, red wines, broken guitars
Cause we're free and we're young at heart
And I know you'll all remember me oh back in time
But you stay on my, oh you stay on my mind

But you stay on my, oh you stay on my mind
But you stay on my, oh you stay in my mind
But you stay on my, oh you stay in my mind
But you, no you stay in mind

Sweet talks on a Sunday afternoon
Never hold you down, all the wilds and the truth
And I know that you'll remember me oh back in time
But you, well you stay on my, oh you stay on my mind
