

Fall Apart

Tones And I

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no, no we don't wanna fall apart
When we're laughing it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no, no we don't wanna fall apart

Freeing my mind, baby
Waiting on a new salvation
In my mind freedom is worth fighting for
I'm tryna start a new mind nation

And then we go ooh, ooh, ooh
I've been sitting all night, thinking 'bout the times I spent with you lately
And then we go ooh, ooh, ooh
Now I've got a long flight, in and out of my life quick now I'm dazey

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no, no we don't wanna fall apart
When we're laughing it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no, no we don't wanna fall apart

Missing pieces maybe
We'll find our resolution someday
But there's no-one like you, baby
No one's gonna heal our heartbreak

And then we go ooh, ooh, ooh
I've been sitting all night, thinking 'bout the times I spent with you lately
And then we go ooh, ooh, ooh
Now I've got a long flight, in and out of my life quick now I'm dazey

No, we don't wanna fall

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no, no we don't wanna fall apart
When we're laughing it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no, no we don't wanna fall apart

Keep your calm, breathe, we don't wanna fall apart, no
No, we don't wanna fall apart
Keep your calm, breathe, we don't wanna fall apart, no
No, we don't wanna fall apart
Keep your calm, breathe, we don't wanna fall apart
We don't wanna fall apart
Keep your calm, breathe, we don't wanna fall

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no, no we don't wanna fall apart
When we're laughing it always shows

I never really think I'll ever let you go
But we don't wanna fall apart, no, no we don't wanna fall apart

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no, no we don't wanna fall apart
When we're laughing it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no, no we don't wanna fall apart
