

# Candlelight

Toni Braxton

Lonely in bed  
At night  
And it never feels right  
I toss and turn  
Each night  
Till the morning light  
But just the thought of you  
Sends chills up and down my spine  
Just knowing you'll be here real soon  
Makes everything alright

Candlelight  
It makes it special  
Me and you  
On a rare occasion  
Candlelight a special night  
Seeing you is a sweet sensation  
Candlelight

Memories of you  
Your arm baby,  
Squeezing me close to your heart  
Shadows in the dark  
Baby  
Of you kissing ever part  
And knowing we can share it all  
And still be  
Still be free  
For each and every magic moment  
Will last for eternity

Candlelight  
It makes it special  
Me and you  
On a rare occasion  
Candlelight a special night  
Seeing you is a sweet sensation  
Candlelight

And my love for you  
Will never fade away  
I'll save a special spot  
For you baby always  
Don't you know my heart  
Has made for you  
A special place  
Don't you know  
Call on me  
When you want me  
When you want me  
I'm here for you

Candlelight  
It makes it special  
Me and you  
On a rare occasion  
Candlelight a special night

Seeing you is a sweet sensation  
Candlelight
