

Can't We Try?

Toni Gonzaga

Things are fine but in my nights i miss the one
With whom i share my thoughts and dreams
Alone im finding out its hard to be without you here with me
It makes me crazy

[II]

Days have passed and so the nights get colder
All the more i grow to miss u stronger
No, ive never been in love and hurt like this before
But let me ask you one thing

[Chorus]

Can't we try
To make up for the bad times
Baby can't we try
To bring back all the loving
That is still inside
I'm sure it's right
This could be forever
Let's give it one more try

[repeat II and Chorus]

You see there can't be
Somebody else between us
Seldom do some people find
Another chance like ours
And if we take it then we'll make it through

[repeat Chorus]
