

Finally

Toni Gonzaga

I never felt this way
Falling inlove like in a shake spears play
Feelin' the magic of love
I had my shares of love
But you're the one I can't live without
Want you more and more of your smile

Everything you do, everyday with you
Every moment is forever
Every time I'm with you
Brings me closer to heaven

Finally reality
This better than my dreams
Finally oh finally
It happen to me
Could be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love

I need to stand and wait
For the world long this cue
Just for as moment with you
I could search my whole life through
And ever find another you
You're the only one in my life

Everything you do, everyday with you
Every moment is forever
Every time I'm with you
Brings me closer to heaven

Finally reality
This better than my dreams
Finally oh finally
It happen to me
Could be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love

Everything you do, everyday with you
Every moment is forever
Every time I'm with you
Brings me closer to heaven

Finally reality
This better than my dreams
Finally oh finally
It happen to me
Could be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love

I've fallen in love
