

To Be Loved

Tonic

Love, did you come to justify?
Love, all the things you cannot find?
And love, it wasn't just a passing thing
It never promised you

So give us freedom, give us light
Someone that keeps us warm at night
All we want, all we want
Is to be loved

Lines, tells you what you cannot change
Find, everything that's rearranged
And love, everything you couldn't find
They never promised you

So give us freedom, give us light
Someone that keeps us warm at night
All we want, all we want
Is to be loved

And love, all you said you'd never find
It here, and it's by design
They never promised you

So give us freedom, give us light
Someone that keeps us warm at night
All we want, all we want
Is to be loved
Show us easy, show us strong
Show us what's forever gone
All we want, all we want
Is to be loved
