Burning On

Tonight Alive

What's enough for you is not for me
You want to fall in love but not too deep
Well I can't stand it

Don't look away, I want you to stay
All that you need is to stand in the fire
And bow to your rage, tear down the gate
Show your fears and desires to me

And just keep burning on
It's a lot like breathing (a lot like breathing)
And just keep burning on
'Til you're addicted to feeling (addicted to feeling)
We just keep burning it, burning it, burning it on, on, on
Burning it, burning it on
Burning on so you can love like you mean it
(Love like you mean it)

You have spent your life avoiding pain
But beauty lies in that which is not safe
Can't you feel it?

Just look at me, I said look at me
I want you to see how I feel when I'm aching
And desperate to breathe, you'll do anything
When you know you're alive, you are free

And just keep burning on
It's a lot like breathing (a lot like breathing)
And just keep burning on
'Til you're addicted to feeling (addicted to feeling)
We just keep burning it, burning it, burning it on, on, on
Burning it, burning it on
Burning on so you can love like you mean it
(Love like you mean it)

And if you wanna see the brightest colors
And if you wanna live your wildest dreams
I can tell you it's real
'Cause it happened to me
I just keep burning on and on, yeah

And just keep burning on
It's a lot like breathing (a lot like breathing)
And just keep burning on
'Til you're addicted to feeling (addicted to feeling)
We just keep burning it, burning it, burning it on, on, on
Burning it, burning it on
Burning on so you can love like you mean it
(Love like you mean it)
