

Stumbling Down

Tony Allen

[Verse 1]

Just wanna see a side of space, wanna see my space
I know I won't be limited by race, age
I wanna see my face, I wanna see the corner of my face
Not a place, pace, rage
And I'm large and in charge, brave
I've come far, I've been hurt, pain
I got heart, I got bars, rain
I got heart, I got bars

[Bridge]

I know I'm in a corner, I know I'm falling over
Looking off my shoulder, ayy
I know I should have told ya, I know I'm falling over
I know I'm crossover, ayy
You always tryna take my pride (Pride)
You always wanna change my mind (Mind)
You never wanna see me shine
You always wanna see my grind

[Chorus]

Huh, said we supposed to fall
I don't really see us fall
I think that you all tripping
Girl, please close the door
What you oughta know
We gon' break off of those hinges

[Refrain]

I don't make the same
Said the same
Shit, we not the same
I don't make the same
Said the same
Shit, we not the same
I don't make the same
Said the same
Shit, we not the same
I don't make the same (And I)
Said the same
And I'm stumbling, stumbling down

[Bridge]

I know I'm in a corner, I know I'm falling over
Looking off my shoulder, ayy
I know I should have told ya, I know I'm falling over
I know I'm crossover, ayy

You always tryna take my pride (Pride)
You always wanna change my mind (Mind)
You never wanna see me shine
You always wanna see my grind

[Chorus]

Huh, said we supposed to fall
I don't really see us fall
I think that you all tripping

Girl, please close the door
What you oughta know
We gon' break off of those hinges

[Verse 2]

Why you wanna switch up who you are?
Why you always tryna find a better version?
Better than the last
Why you always bringing up the past?
Why you never realise vision always blurry till it's not?
Ayy, I never said it's easy
Never said you'll never stumble on the road
"Moonwalks breezy"
Ayy, always tunnel vision
'Member with the headlights on, see snakes with precision

[Refrain]

I don't make the same
Said the same
Shit, we not the same
I don't make the same
Said the same
Shit, we not the same

[Chorus]

Huh, said we supposed to fall
I don't really see us fall
I think that you all tripping
Girl, please close the door
What you oughta know
We gon' break off of those hinges
Huh, said we supposed to fall
I don't really see us fall
I think that you all tripping
Girl, please close the door
What you oughta know
We gon' break off of those hinges
