

Never Too Late

Tony Bennett

Its never too late
For rainbows to shine
For whispering violins
And bubbles in the wine

Its never too late
To ring like a bell
To steal away somewhere
And catch a carousel

The summer is green
The autumn is gold
So no matter when love comes
Its heavenly to hold

Let your heart stay young and strong
Just one note can start a song
So don't worry 'bout how long
You've had to wait

Its never too late
Its never too late

The summer is green
The autumn is gold
So no matter when love comes
Its heavenly to hold

Let your heart stay young and strong
Just one note can start a song
So don't worry 'bout how long
You've had to wait

Its never too late
Its never too late
