

That Night That Heaven Fell

Tony Bennett

The night that heaven fell
Was a night beyond compare
The smile you smile was brighter than the stars
A million dreams were ours to share

The night that heaven fell
Was a lover's holiday
You touched my hand and suddenly I felt
My heart begin to melt away

And then we kiss
And a spell was cast
But when we kiss
Seems the universe
Went in reverse

And as I looked around
For the world was upside down
For paradise had just come down to earth
To celebrate the birth of love
The night that heaven fell
