

A Boy Who Can't Talk

Tony Carey

Well they're all so afraid of you
What you do with your mind
And they hide you and shut you away
Just to keep you in line

And thousands are waiting outside
Just to walk where you walked
Where you walked
And the newspaper's screaming for words
From a boy who can't talk
He's just a boy who can't talk

Well they offer you money
But money don't mean much to you
And they feed you with flattery
To get you to show them the things that you do

And thousands are waiting outside
Just to walk where you walked
Where you walked
And the newspaper's screaming for words
From a boy who can't talk

And you'd like to say "leave me alone
Would you all get away"
And you wish you were safely at home
And you wish that somebody would stand up and say

He's a boy
A boy who can't talk"
Just a boy
A boy who can't talk

And the whole world is screaming for words
From a boy who can't talk
A boy who can't talk

He's a boy
He's a boy who can't talk
Just a boy
A boy who can't talk
He's a boy
A boy who can't talk
Just a boy
A boy who can't talk

Artemis... come home...
