

# Boystown

Tony Carey

There's a loon calling on the lake tonight  
TV's goin', it's black and white  
And I was the only one who ever knew you  
Cold coffee on a hot plate  
Nothin' to do but sit and wait  
I lied when I said I didn't care about you

Where were you when the lights went out  
You'll have plenty to talk about  
In Boystown tonight  
Where will you be when the big one comes  
And all your money can't buy you none  
In Boystown tonight  
Goin' to boystown

I changed my mind, changed it back again  
Stuck around through thick and thin  
I swore I would never see your face again, baby  
Every time's your last time  
Every line your last line  
One more, and you're off to the races again

Where were you when the lights went out  
You'll have plenty to talk about  
In Boystown tonight  
Where will you be when the big one comes  
And all your money can't buy you none  
In Boystown tonight  
Goin' to boystown

Sha-la-la-la-la-la...

I'm standing at a crossroads  
I don't know which way to go  
Should I head on down the road  
And find a life  
Waiting for the phone to ring  
Some cop who's seen 'bout everything says  
Mister come on down and get your wife  
She's out like a light

And I know all about nights like this  
I know all about chances missed  
I know you even better than you do  
Your taxi's here and your bag's all packed  
You know they'll always take you back  
You know there's always a place there for you  
Over in Boystown  
Over in Boystown  
Goin' to Boystown
