

# Comes The Flood

Tony Carey

Let's talk it over  
Let's be blunt  
I don't wanna say this more than once.  
But we've been fighting out on too many fronts  
We got lost somewhere.  
You cut and run away wherever you can  
You think what's wrong is something I won't understand.  
Well  
Here I am and babe  
I'm holding out my hand  
And I really do care.  
There is only one way out of here  
There is only one thing we must fear.  
Only one voice in my ear.  
So  
Listen very well here wherever you are.  
Let the rain come washing over you  
Comes the flood  
I'll be right there next to you.  
Let the rain come washing you down  
Let it wash right over you  
Comes the flood  
Comes the flood  
I'll be right there next to you.  
It felt like heaven when we left that town  
Seemed like salvation all the way around.  
I thought my feet would stay six inches off the ground  
We had a love  
Babe.  
I look you over  
And I have to look away  
I can't stand to see you hurting that way.  
Why won't you see that I am with you all the way?  
You're my blood  
Babe.  
There's only one way out of here  
...  
Let the rain come washing over you  
...
