

# Out of Town Woman

Tony Carey

Yeah, yeah, yeah, yeah  
She's a warm kind of woman  
She gives my life that swing  
And she loves me kinda natural  
I'd give her anything

And I want her, I need her  
I'd give anything to see her  
When I get home, I sleep alone  
But I don't sleep very well  
I miss my out of town woman  
Yeah, yeah, yeah, yeah  
My out of town woman  
My Woman

I meet her on the weekend  
I call her every day  
I don't speak if a man should  
Pick up the phone  
But her husband's always away

And I want her, I need her  
I'd give anything to see her  
When I get home, I sleep alone  
But I don't sleep very well  
I miss my out of town woman  
And did I tell you that I love her  
I love her

Yeah, did I mention I can't live without her  
Shout it out - won't live without her

Yeah, yeah  
Yeah, yeah, yeah, yeah  
My out of town woman  
My woman  
And I miss you girl  
I miss you woman  
My out of town woman

Still and I want her, I need her  
I'd give anything to see her  
When I get home, I sleep alone  
But I don't sleep very well  
I miss my out of town woman  
Yeah, my out of town woman  
Hey woman.

And I miss you girl  
I miss you girl  
My out of town woman  
You know I miss you girl  
Come on back to me  
Come on over baby
