

Sing Along

Tony Carey

There is nothing that I really rather do
then to take a little time and make love to you
there is nobody else id rather know
girl you make me want to sing to you real slow

sing along, be with me today
sing along, and it all goes away
sing along, and there's nothing to say
but baby, stay

and we don't even need to go out
we can show each other just what love's about
there's nothin that can ever keep it out
oh, darlin stay with me and sing along

sing along, be with me today
sing along, and it all goes away
sing along, and there's nothing to say
but baby, stay

and there's nothin that can ever keep it out
oh, darlin stay with me and sing along

i said, sing along, baby
sing along
i said sing along
