

All over the world

Tony Christie

The highway brings me on to California
So many thousand miles away from home
I'm always sad without my little darling
I miss you oh, so much when I'm alone

Every day another town to stay in
Every night another room to live
When again I'll see you
That I get that kind of feeling
You'll know that I have so much love to give

All over the world, all over the world
No matter where I am
I think of you, my darling
All over the world, all over the world
We'll always be together you and me

This plane I'm on will bring me to my darling
And I will come back safely home to you
I have been so far away
That I missed you every day
I'll hold you in my arms
The whole night through

All over the world, all over the world
No matter where I am
I think of you, my darling
All over the world, all over the world
We'll always be together you and me

All over the world, all over the world
No matter where I am
I think of you, my darling
All over the world, all over the world
We'll always be together you and me

All over the world, all over the world
No matter where I am
I think of you, my darling
All over the world, all over the world
We'll always be together you and me
