

## My Little Latin Lover

Tony Christie

I only intended to steal a kiss  
And put my arms around you  
You made it happen, I couldn't resist  
I was so glad I found you  
The mist in my eyes and your smile so sweet  
You stole my heart  
I knew our love would be doomed from the start

My little Latin lover, there'll never be another  
You said, be mine forever, that is no lie  
The one thing I will miss is, your tender loving kisses  
If I can only love you just one more night

I only intended to steal a kiss  
But something happened to me  
And I never wanted to end like this  
The pain is going through me  
So baby, forgive me, or what it's due  
We had to part  
I know that you will remain in my heart

My little Latin lover, there'll never be another  
You said, be mine forever, that is no lie  
The one thing I will miss is, your tender loving kisses  
If I can only love you, just one more night

Please, hold me tight, just one more night

My little Latin lover, there'll never be another  
You said, be mine forever, that is no lie  
The one thing I will miss is, your tender loving kisses  
If I can only love you, just one more night

Just one more night
