

My Love Song

Tony Christie

My love song
Never made the world stand up and start singing
Never had no sweet poetic lines
Didn't even lie
All my love song ever said
Was, please, be mine

My love song
Only seemed to play when you were close, I mean
Something in your smile would turn it on, I need
All the tender love you sold me, then
Let my song play again

Nights when I was cold you made me warm
You hid me from a storm
Darling, out of love for you, my song was born

And my love song
Lived upon the happiness you gave, to me
Turn your love on me again and then, truly
How can we two possibly do wrong
With your love and my song

You are the world I'm in
You are the song I sing
Your love for me will always be my everything

My love song
Lived upon the happiness you gave, to me
Turn your love on me again and then, truly
How can we two possibly do wrong
With your love and my sweet love song

Filling all my heart and soul
It's my love song
Say you'll always stay, let it play on, and on
My love song
