

Don't Over Do It

Tony Joe White

Pepe never worries, he never tries to save one cent
A dollar in his pocket well it's just a coincidence
If he has some fun he considers it money well spent

He don't over do it... He don't over do it
He just ease into it
He don't over do it

Eddie never hurries but he seems to be on time
You might see him shopping
But you'll never see him standing in line
He says it's just a matter of having rhythm in your mind

He don't over do it... He don't over do it
When it comes down to it
He don't over do it

I like to sleep late ain't nothin' wrong with staying in the sack
Sometimes I ain't sleepin' I'm just checking my eyelids for cracks
They say I might be lazy but I call it just a little laid back

I don't over do it... I don't over do it
I don't swallow 'fore I chew it
I don't over do it

I don't over do it... I don't over do it
When it comes down to it
I don't over do it

You don't over do it... You don't over do it
Just ease in to it
You don't over do it
