

Don't Steal My Love

Tony Joe White

Don't steal my love like a thief in the night
And don't leave me in the dark searchin' for your light
If you take from me give somethin' in return
Don't Be so cold while my fire Burns

Touch me like the wind
Slip right thru my hands
And don't take my seeds from me
And leave me like some Barren land

If you take from me
Give somethin' in return
Don't Be cold while my fire Burns
Don't steal my love, don't steal my love
Don't steal my love, don't steal my love, don't steal
love

When our night is over and the mornin's on my face
Go from me softly leave without a trace
Don't take my heart with you
Don't take my heart with you
Don't take my soul with you
Don't steal my love, don't steal my love, don't steal
my love, don't steal it
Ahh uh

When our night is over and the mornin's on my face
Go from me softly leave without a trace
Don't take my arms with you, don't take my heart with
you
Don't take my soul with you
Don't take me, don't take me, don't leave me with
nothing
Don't steal it, don't steal it, oh don't steal it!
