

Menutha

Tony Joe White

Out last night
The night before
Daylight catch me
Sneaking in my door

A little bit of wildness
Sure go a long way
I'm gonna need a little help
Just to get me through the day
Menutha

Woke up this morning
Slightly out of tune
Had to leave my old Cadillac
Down in Ville Acuna

I'll go back across the river
And pick it up sometime today
And while I'm there
I might have to check out Manuel's cafe
Menutha

It's a cool life
Continuity
A little air conditioner
In my silver air stream

But I need to kick back
And see what condition I'm in
'Cause it won't be long
Till I'm down at miss Crosby's again
Menutha

I need Menutha
Way cross the river...
