

# Nothing I Would Not Do

Tony Joe White

You sent me a message  
Straight to my heart  
I could hear it clearly  
Though we're far apart  
You said you were missing me  
Needed me there  
I could almost feel your heartbeat  
Coming through the air  
I got an airplane ticket  
Oh I had to find the quickest way  
I could make it back to you

Nothing I would not do for you  
Nothing I would not try to make it right  
You are the reason why  
That I have to take a deep breath baby  
Anytime I'm close to you

We have no way of knowing  
What tomorrow may bring  
But if I'm not with you babe  
It won't mean a thing  
When the night is falling  
Look up at the sky  
Pick you out the brightest one  
And remember that I  
Will be looking at the same one  
Trying to just hang on  
Until I make it back to you

Nothing I would not do for you  
Nothing I would not try to make it right  
You are the reason why  
That I have to take a deep breath baby  
Anytime I'm close to you

Nothing I would not do for you  
Nothing I would not try to make it right  
You are the reason why  
I have to take a deep breath baby  
Anytime I'm close to you

Nothing I would not do for you  
Nothing I would not try to make it right

Nothing I would not do for you
