

Rain Crow

Tony Joe White

There's wondering about the shadow
Keeps crossing your path
Don't look nothing like you but I'm afraid to ask

I was thinking about your bad dream
Is it still under your cover
Or flying around like a snake doctor
Wanting to be your lover

Rain crow
I've seen you walking in a hard rain
Nothing over your head
And you smile just like it's a sunny day
Is it something the thunder bed said
Rain crow

Rain crows calling
He was always by your side
He is never seen
But you hear his lonesome cry
