

Who You Gonna Hoodoo Now?

Tony Joe White

Coffee skin, little bit of cream
Golden eyes with a touch of green
High cheekbone, kinda tall
You won't think twice if you think at all

She like a panther on the prowl
Who you gonna hoodoo now?

Had a residence, down in Covington
Knew she had a sweet tooth so I bought her some
Like to stay out late, dance all night along
She would only make love at the break of dawn

Took me up so high I can't look down
Who you gonna hoodoo now?

I checked it out with a fine tooth comb
And I knew I had to leave that woman alone
Heard about a place, Saint Francisville
A little rehabilitation to cure you illness

But I don't think it could help me anyhow
Who you gonna hoodoo now?
