

## Tonight We Love

**Tony Martin**

Tonight we love  
freddy martin- words by bobby worth, music adapted by ray austin and freddy martin- from tchaikovsky's piano concerto in b-flat minor  
tonight we love while the moonbeams  
down in dream light  
tonight we touch the stars  
love is ours  
night winds that sigh  
embrace the sky  
tonight we love in the glow  
that glows so softly  
i know this wasn't meant to borrow but tomorrow  
will it be gone  
or will it always live on  
tonight we love
