

# Weather For Two To Make Three

Tony Toni Toné

Falling, falling, falling  
Falling, falling rain

When I was a boy, I met a girl  
Made me wanna throw away my toys  
Showed me things I never thought I'd learn  
Baby, I thank you—just let me show you  
Now that we're much older, things have changed  
And Hide and Let's Go It was the game  
There's so much I wanna say to you  
I wanna thank you—ah, just let me show you  
And I know that you think that there's only one thing on my mind  
But it feels like...

Weather for two to make three  
(Weather is so nice)  
Weather for two to make three  
(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—I wanna thank you, girl)

Winter came along, I caught a chill  
Spring had come around, I felt the same  
And now that summer's brought about a slight change  
And I'm falling, falling, falling...I'm falling, falling rain...  
But I know that you think that there's only one thing on my mind  
And it feels like...

Weather for two to make three  
(Weather is so nice)  
Weather for two to make three  
(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—lucky I met you, ooh yeah, it feels like)  
Weather for two to make three  
(Hey, yeah)  
Weather for two to make three  
(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—ah, let me thank you)

And now that we share this time together  
And I must admit that it was so fine  
I wanna say one thing, I think I'm lucky  
Lucky I met you (Falling, falling, falling...falling, falling rain...)  
I know that you think that there's only one thing on my mind  
Ah, baby it's...

Weather for two to make three  
(Weather is so nice)  
Weather for two to make three  
(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—lucky I met you, come on, baby)  
Weather for two to make three  
(Weather is so nice)  
Weather for two to make three

(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—I wanna thank you, girl, hey, yeah)  
Weather for two to make three  
(I, I, yeah)  
Weather for two to make three  
(Honey, let's go inside)  
Weather for two to make three  
(Weather for two to make three—hey, baby, let's go inside so we can get closer)  
Weather for two to make three  
(When it's cold outside)  
Weather for two to make three  
(I wanna feel your body close to mine)  
Weather for two to make three  
(Love is weather for two to make three—ah, so nice, so fine, baby)  
Weather for two to make three  
(Let's go inside, get a little warm)  
Weather for two to make three  
(Cuddle by a fireplace)  
Weather for two to make three  
(I wanna see your body warm)
