

## Swine Flu Intro

Tony Yayo

Tony Yayo, Superstar Jay...  
"Swine Flu Part 2"!  
Enter Queens at your own risk!  
Ha-ha-ha-ha-ha!

There's a stillness in the air...  
In the neighborhood where two blocks seem empty.  
You can hear the wind whip through the playground usually crowded with children.  
Signs on school doors: "Closed because of swine flu".  
This is Ground Zero for swine flu here in New York.  
Queens... has more than half the swine flu cases in the country  
.

Swine flu breeds in pigs... spread then from person to person.  
Right now New York City is virtually shut down!

Schools are closed.

This is a virus the world has really never seen before.

Libraries and museums... shut down.  
Residents wearing masks!
