

# Control

## Too Close To Touch

Terrified  
Alone inside  
The dead confide in no one else but me  
They sing  
Hear we are  
I gave it all  
To nothing as they steal the air I breathe  
It seems

Deeper and deeper it goes  
I cannot help myself when I've lost control  
I know this isn't worth my time  
But I can't find  
The places I used to know

Deeper and deeper it goes

Why am I sinking  
Why am I stopping  
Everything that's gonna save me  
Everything that's gonna save me

Knowing I'm alone inside  
The dead confide and maybe I'm at peace  
They sing  
You were never meant to sleep  
So won't stay awake right here with me  
Don't breathe

Deeper and deeper it goes  
I cannot help myself when I've lost control  
I know this isn't worth my time  
But I can't find  
The places I used to know

Deeper and deeper it goes

Why am I sinking  
Why am I stopping  
Everything that's gonna save me  
Everything that's gonna save me

Gonna save me  
Won't be afraid  
Of the fall from a failure  
The weight of it all  
It pulls me under

Deeper and deeper it goes  
Deeper and deeper it goes

Why am I sinking  
Why am I stopping  
Everything that's gonna save me  
Everything that's gonna save me  
Everything that's gonna save me  
Everything that's gonna save me

Deeper and deeper it goes
