

Brain Surgery

Too \$hort

It's brain surgery
Don't take a motherfuckin' genius
You just gotta know how to do it, bitch

Shut up, bitch, and suck my dick
Lick my balls so I can nut real quick
You talk too much, put this in your mouth
That's that gag reflex, spit it back out
I'm touchin' your tonsils with my dick head
I like to stand up when I get head
Told her suck it sideways, use a lot of spit
And use two hands, I got a lot of dick
It's called girth, it's wide and long
I'm lookin' down to see what I'ma come on
It's usually her face and then I'm gone
She's moanin' while she's givin' me dome
She 'bout that deep throat, when that bitch is here
She take my whole dick and make it disappear
I say, 'Ooh, I like that shit'
The bitch makes me nut while she play with her clit

It's brain surgery
Don't take a motherfuckin' genius
You just gotta know how to do it, bitch

She said I taste like a smoothie
Goin' down on me while I'm watchin' a movie
I even get served when I drive
Windows rolled up, smokin' herb, gettin' high
Slobbin' on my knob got me talkin' to God
You better do it right, you only got one job
Damn, she straight domin' a nigga
If she hit me on the phone, I'm goin' to get her
I let her kiss it all over
Balls deep, put it up against her cheek when she fall asleep
Wake up from a dream, slurpin' away
Swallowing sperm while she burpin' the babies
All she want is that chocolate bar, she's a cum fiend
That's how I got the broad, I'm talkin' oral sex
Let my dick flex when I whip it out, bitch
You know what's next

It's brain surgery
Don't take a motherfuckin' genius
You just gotta know how to do it, bitch

I got a job for you, can you blow?
You can start today, around four
'Cause I love blowjobs in the afternoon
If the homies pull up, you gon' have to do 'em
I like white girls, that's what I heard
If she's got a round ass and she's really a nerd
I will cordially receive her appreciation
But I love black girls and I love my Asians
She gon' fall in love if I hit the cat
I keep a mixed bitch, a little this and that
'Cause I don't give a fuck if she white or black

She can suck my dick if she cute and fat
I don't discriminate, I'm not a racist
I done came on all kinda faces
A lot of bitches from different places
And none of y'all dummies can't say shit

It's brain surgery
Don't take a motherfuckin' genius
You just gotta know how to do it, bitch

It's brain surgery
