

## Information

## Too \$hort

Information - can you buy it? Can you sell it?  
And if you really knew the truth, would you tell it?  
Just like History class when you're in school  
You grow up and learn the truth, you're just a fool

Ask the Native Americans, Mexicans, and Africans  
The things you lost, would you rather get 'em back again?  
I tried so hard to believe you  
But we all know the things that Europeans do  
Now what if the Asians, Africans, and Indians  
Never taught you nothin', you would still be primitive  
What we all need is self-education  
That's the only way to educate this nation  
The good old USA  
Built on lies from back in the days  
Great Britain, France, and Spain got bold  
Destroyed the New World lookin' for gold

Now, information - can you buy it? Can you sell it?  
And if you really knew the truth, would you tell it?  
Just like History class when you're in school  
You grow up and learn the truth, you're just a fool

I need some more info  
I don't really know what happened to my kinfolk  
I know we built the nation with our bare hands  
Helped you fight your wars just like the Indians  
But when he tells you his story, we ain't in it  
Why you stealin' people's lands? You can't admit it, can you?  
Tell me why do you lie to little kids  
With your one-sided stories? Tell 'em what you did  
Better yet, tell 'em what you didn't do  
It wasn't brains, your gun was your pimpin', too  
That's how you mastered the slave trade  
Shipped from overseas so you could stay paid  
Divide and conquer, everywhere you go  
But by the time we finish school, we barely know the real truth  
Need to stop and take a serious look  
Who wrote these government-issued history books?

Man, information - can you buy it? Can you sell it?  
And if you really knew the truth, would you tell it?  
Just like History class when you're in school  
You grow up and learn the truth, you're just a fool

The European couldn't do it by himself, y'all  
If the Indians wasn't here, he woulda left, y'all  
But instead, he gave 'em all his diseases  
Tried to kill 'em, take the land and seize it  
Move into the camps that the Natives built  
Named cities and states but do they say who helped?  
Hell nah, they say Lincoln freed the slaves  
But we ain't free yet, I still see them days  
Racism ain't goin' nowhere  
Watch movies about the future, niggas ain't there  
Maybe one or two - what happened to the rest?  
They tryin' to keep your self esteem low, it's just a test

Every man had his own land before the European  
I can't believe what I'm seein'  
That's why your pride is on vacation  
Brainwashed a whole nation with the wrong information

Can you buy it? Can you sell it?  
And if you really knew the truth, would you tell it?  
Just like History class when you're in school  
You grow up and learn the truth, you're just a fool

Information, bitch  
Gotta get the right info, baby  
(Gotta get it while the gettin' is good)  
Fuck around, goin' around talkin' 'bout some stupid shit, bitch  
(Dummy)
