Too \$hort

I can make it better
League of Starz
I swear I make it better
I-I can make it better
Sorry Jaynari
I Swear, I swear I make you better

That's what you want?
You wanna go shopping
Put a little cash in your pockets
You out looking for a man to trick
You really need a manager, bitch
You got a lot of potential, superstar qualities
A bitch like you could get a lot of cheese
Now wipe your face off, get up off your knees
You my favorite little bitch, my prodigy
Whatever I say, don't question me
I'm tryna make you the best you can be
So your diamonds bling when you get in the car
You so motherfuckin' hard when you shit on these broads
I got you baby, I'ma show you how to get it
All that depression and complaining, just quit it
All that confessing and explaining you did it
But now you 'bout to live the good life, if you with it

I know, I know, I know, I know
I know you wanna choose
If you with me, you could never ever lose
Listen to a G, I can tell you what to do
Instead of getting one, you can end up with a few

(Girl, let me mentor you)
I can make it better
I swear I make it better
I-I can make it better
I Swear, I swear I make you better
(Girl, let me mentor you)
I can make it better
I swear I make it better
I-I can make it better
I Swear, I swear I make you better
(Girl, let me mentor you)

Yeah, just dropped fifty bands in the showroom
Cheetah in a two seater
Bullshit, ain't got no room for it

Real talk, killas bust brooms for it
Street sweep your freak
Your last was weak, you must move forward
Chachi got you, I watch when you throw it like Polamalu
A leader you can follow in hopes of better tomorrows
Build your brand up, head high, you can stand up
Bad bitches call, you can really raise your hand up and not second guess it
Your problems? We'll address it
A little less aggression, I'll show you how to finesse it
Figure all there, teach you to lay the dresses
Your girls can't hate, 'cause all of them hoes is messes, baby
What? This the chance of a lifetime
Celebrate, a real one done throw you a lifeline
You Buzzball bitch, now you sippin' on white wines
Money never caught in the pipeline
Choose up, what

I know, I know, I know, I know
I know you wanna choose
If you with me, you could never ever lose
Listen to a G, I can tell you what to do
Instead of getting one, you can end up with a few

(Girl, let me mentor you)
I can make it better
I swear I make it better
I-I can make it better
I Swear, I swear I make you better
(Girl, let me mentor you)
I can make it better
I swear I make it better
I-I can make it better
I Swear, I swear I make you better
(Girl, let me mentor you)
I can make it better
I swear I make it better
I-I can make it better
