be cautious

Toosii

Don't wait too long
Don't tell me that you love me when you know you love me
Don't wait too long
Don't tell me that you love me, and everthing got ugly

Pay on deep, shame on me
I shoulda known that you'd put the blame on me
'Stead of sayin' on me, don't you change on me
Don't crash and burn, don't go switchin' lanes on me

Because she's with my heart
'Cause I need love, and I need peace
And I need help
And I need you to help me be myself

Ain't got a ego
You know I need ya
Ain't got a start on my mind to see other people
Why would I leave you?
Baby, just talk to me
'Cause you know you bring light to my darker days

Sell out the window, champagne mine over top, aye
Came in it up, but I hope this love, she take me far away
Hammin' it up, girl, but I need ya, it's gon' be up, girl, when I see ya
I'm tryna make you kiss me through the phone as your ring up, oh

Don't wait too long
Don't tell me that you love me when you know you love me
Don't wait too long
Don't tell me that you love me, and everything got ugly

Pay on deep, shame on me
I shoulda known that you'd put the blame on me
'Stead of sayin' on me, don't you change on me
Don't crash and burn, don't go switchin' lanes on me

Because she's with my heart
'Cause I need love, and I need peace
And I need help
And I need you to help me be myself

Close to the edge, lost in the head
Still hopin' you'll get lost in my bed
Oh, me, oh, my, what a wonderful time for you to be alive
Don't be my demise, be my disguise

You be my Bonnie, and I'll be your Clyde
You could be head if you don't arrive
You could be head, just don't go switch sides, and don't go
Tell me no lies

Don't wait too long
Don't tell me that you love me when you know you love me
Don't wait too long
Don't tell me that you love me, and everything got ugly

Pay on deep, shame on me
I shoulda known that you'd put the blame on me
'Stead of sayin' on me, don't you change on me
Don't crash and burn, don't go switchin' lanes on me

Because she's with my heart
'Cause I need love, and I need peace
And I need help
And I need you to help me be myself
