Toosii

You know and that shit kind of be hard when you
When your loved ones behind that, them bars you know
Behind that cell or in them walls and shit like that and you ca
n't do nothing
That shit hurt

Sitting here on the outside I can only imagine how you feeling
We came up on the drugs my nigga
You in love with dope dealing
And I gotta make this song cry to let you know that I'm with it
I just gotta let you know that I'm here with you
Even though a nigga can't be there with you
Calls from the inside
Call me and I'll slide

Judge gave Rell 25 to life
Shit I could die tonight
I don't know if a nigga wanna take my life
Just one call it could make my night
I wanna hear yo voice
From the outside too
Cause' them inside calls ain't what it is bro
Lame nigga wanna snake me then try to turn around and call me h
is bro
Shit I know that you won't do that nigga
Heard them stories how you shoot at niggas
And shit I believe it but if it's 12 asking I don't believe nun
,

My youngin' in a cell right now said that he wanna be somethin'
Tried to tell us that we couldn't do it but stop at look at wha

I did this shit for the projects
My step daddy got it all off the pyrex
Said he like it when I flex
My sister more gangsta than all of these niggas
She done did more time than yo watch did
Gotta make sure you get you a phone on the inside so you can wa
tch it when I'm big

Sitting here on the outside I can only imagine how you feeling
We came up on the drugs my nigga
You in love with dope dealing
And I gotta make this song cry to let you know that I'm with it
I just gotta let you know that I'm here with you
Even though a nigga can't be there with you
Calls from the inside
Calls me and I'll slide
