

Clock Work

Toosii

24/7, I been on my grind
I hear you when you say come home, yeah, but I need a lil' more
time, yeah
I can feel the walls caving in from the outside in, I just need
a lil' time, yeah
I don't really care what you do, lil' baby, just please don't m
ess up my vibe

'Cause I been going in like clockwork
Tell me pull up, that's clockwork
When I go down, that's clockwork
Hush up, hush up, that's clockwork
I been on T-M, just chasing my dreams right now, but I swear I
just need a lil' time
I don't really care what you do, lil' baby, just please don't m
ess up my vibe

The backseat clear like the Sprinter van, I know the truth, gir
l, you been a fan
Say you like movies, I do too, baby, I'm just all about the Ben
jamins
The inside cream, the outside red, don't open yo' mouth, just o
pen yo' legs
Fuck them bitches, yeah, I heard what they said, baby, they jus
t tryna get inside of your head
I could be the man of your dreams, going overseas
Taking different flights 'cause I'm knowing what you need
Give good sex, go down, ain't greedy
Getting inside, make you weak in the knees

24/7, I been on my grind
I hear you when you say come home, yeah, but I need a lil' more
time, yeah
I can feel the walls caving in from the outside in, I just need
a lil' time, yeah
I don't really care what you do, lil' baby, just please don't m
ess up my vibe

'Cause I been going in like clockwork
Tell me pull up, that's clockwork
When I go down, that's clockwork
Hush up, hush up, that's clockwork
