Wanna give you everything that you need and everything you please

Gotta keep a glock on my waist

Take my tongue and I be touring ya

Weak in the knees

I believe in love at first sight
He need bout a week
I won't even lie probably stalk yo page and I don't creep
It was something I seen that's more than you being a freak
But you know that that's a plus cause' you get nasty in the sheets
Shouldn't be no shame now you get nasty and gon' geek
I ain't gotta search cause you got everything I seek
Gangsta for a nigga creep on me promise I'ma creep
Chanel bag Dior shoes whatever you want put you on fleek
You know I got the type of dick put you to sleep
The small things know I peep the shit he don't peep
Like how you like a nigga who listen whenever you speak
Or somebody who put you in yo place whenever you tweak

Euphoria

I got her feeling weak in the knees
She yelling baby please don't stop I need more of ya
Wanna give you everything that you need and everything you please
Won't stop know I'm adoring ya

Tripped on the last nigga

Fell in yo past with em
Got the type of vibe when you left he felt like a blast hit em'
Deep down in yo heart you was knowing shit wasn't gone last with em'
He was fucking up you knew that before you even started asking em'
I won't trip on bullshit only right you know I ride with a full clip
I'm so deep in my bag she might just die for some good dick
Hood bitch she pull hood tricks
Pussy so good fuck around get yo hood flipped
And she don't smoke but she get high off life when I give her wood tip
Euphoria
A good girl like a hood nigga when he ride got the strap up on his lap
Make her want more of ya

And you don't trip on these niggas
So I try to play it cool when really I don't know how I'm scoring ya

Euphoria

Wanna give you everything that you need and everything you please

Won't stop know I'm adoring ya
