Hello uhn
How you be
The world in the palm of my hand
But its really not
Really not good as it seems
I been stressing for days now
Yea
Shit I might just break down
Got a case full of wine in the crib
I don't drink but I
Really took one to the face now
I got a lot on my mental
Still ain't spend time with my kinfolk
They like
"Whatever you drop gone be fire"
I'm like
"Give rodger that ten four"
Cause hell on earth
Still ain't the way that I want it to be
Ain't get back on my feet
Not a soul asked how I've been doing
But when they have problems
Then this how I be
Yea

Hey wassup (hey wassup)
How you be (how you be)

Shit y'all knew that this would've costed
So ya'll gone use 'em
Empty hand
Was the man
With no offering
But you gone still find a way
You can use'em
She gone thank God for this seed
Mama had up on sesame
Streets ain't get the best of me
But 9 to 5
Ain't working too well
I think its time that I go build a legacy
I'm talking harmonies
On top of harmonies
A label with whole lot of artist
Who may be the hardest
But that's a hard bargain
When you in this room feeling trapped
I ain't Marvin
But damn
I ain't Marvin but damn
Marvin but damn
Fuck it
Give me love by the boat load
Suicide watch on my clock
Give me mo' jo'
I been feelin down I don't know if you know yo
But if not then cool we can see what the rope holds
Cause
I need love by the boat load
Suicide watch on my clock
Give me mo' jo'
I been feeling down I don't know if you know yo
But if not then cool we can see what the rope holds
