

# Let It Go

Toosii

I think I need to let it go  
I think I need to let it go  
Ms. Hill please don't sue me  
Wait, I ain't even  
Um

Today I face reality  
Woke up  
Feeling like I won't nobody  
My phone beside me  
A message from not a damn soul  
Hands clenching a cross  
Praying that I get off this damn road  
Heading to no where  
Why, I'm headed to no where?  
Yeah  
My GPA ain't even in the 2s  
Being lazy in class  
Got me feeling imprisoned by the school  
System  
I got canibis in my system  
Though I ain't never smoke weed  
I got second hand in my system  
It ain't peer pressure  
Just round my peers when they got pressure  
And Mama know that I'm failing  
So she got prepared lectures  
I'm a fuck up  
Only excuse that I'm gone change myself  
That I'm not dumb  
I'm just lazy  
So I must blame myself  
But wouldn't I be dumb?  
For not solving it  
Why the fuck I even wrote this  
This ain't gone resolve the shit  
And thanks to Ace  
But she don't know  
I feel I won't be shit  
My pastor throw holy water  
So yes, my soul do drip  
In holy water  
A father who loved his daughter  
Aborted his son  
So he feel like  
He don't adore him as much  
Though I work hard  
I feel like hard ain't enough  
God built this earth  
And all my peers seem to be messing it up  
And I can't let it go

I think I need to let it go  
I think I need to let it go  
I think I need to let it go  
None of this  
Matters

Excuse me  
Please excuse me  
I am in my feelings  
I'm  
Way too moody  
If I took one my exes back  
It may be Julie  
Cause ole girl after her  
Was way too smooth, B  
So here it is  
Confession of a dumb nigga  
Stopped caring about myself  
Boy my pockets was dumb bigger  
Got me a lil shorty  
Now them shifts is much thinner  
Mama said "Boy stop tricking  
These hoes  
Is gone get you"  
She right  
But I don't listen  
With my big headed ass  
If Papa was around  
I probably would get kicked in the ass  
I say "Mama  
Don't they know the EP  
Was for attention  
Now this album that I'm making  
For shit  
That I didn't mention"  
Like Todd's story  
But they didn't know that Todd was Tyler  
And that you do cosmetology  
And that you braid the Iver-sons  
Hair from time to time back in the day  
Or that I am the only one who has yet to spark up a J  
So I can let it go

I think I need to let it go (Yeah)  
I think I need to let it go  
I think I need to let it go  
None of this  
Matters
