

Nightmares

Toosii

Oh no, ain't no search
Yeah, ayy

If you know how I feel why you want for me to feel no way
Broke down and you still want me to feel okay
I can't do it we gotta make some shit work
You still try to take my phone and you lurk
I have nightmares on the inside
You can't fix my heart girl you been tried
I ain't do none of that shit girl yo friends lied
Is it bad that I wish some of yo friends died
Evil
I put that on my soul girl I ain't evil
I just ride in a Demon but I ain't evil
Sometimes I have nightmares and they evil
Don't try to tell me you want better
Girl when you know I'm better
You could leave girl I let ya
When you leave I could bet ya
I'm the best you ever had and that's for certain
Girl when you leave just tell me what was your purpose

Nightmares on the inside
I think about you sometimes
I got feelings and I'm in love girl I won't lie
I just wanna be alone but with you that don't apply
And every time you hurt girl you can't say I ain't try
Evil evil
Evel Knievel Knievel
Evil and conniving
I think you misguided
I don't trip when you say you love me
Even though I know you lying

If you know how I feel why you want for me to feel no way
Broke down and you still want me to feel okay
I can't do it we gotta make some shit work
You still try to take my phone and you lurk
I have nightmares on the inside
You can't fix my heart girl you been tried
I ain't do none of that shit girl yo friends lied
Is it bad that I wish some of yo friends died
Evil
I put that on my soul girl I ain't evil
I just ride in a Demon but I ain't evil
Sometimes I have nightmares and they evil
Don't try to tell me you want better
Girl when you know I'm better
You could leave girl I let ya
When you leave I could bet ya
I'm the best you ever had and that's for certain
Girl when you leave just tell me what was your purpose

I was having nightmares on my pillow
It's hard to trust keep a pistol
Take percocets got me evil
I'm controlling my issues

Turnt yo neck and yo wrist igloo
You the reason I don't like people
Plenty times you could've got equal
Going down yo gram damn I miss you
I been getting along with my bruddas
Fuck a bitch want something from the gutta
I usually don't lie when I stutter
2020 year it's guns, butter
All this money turned evil
Gangbanging turned me evil
Trenches had turned me evil
Voice of the streets I'm evil

If you know how I feel why you want for me to feel no way
Broke down and you still want me to feel okay
I can't do it we gotta make some shit work
You still try to take my phone and you lurk
I have nightmares on the inside
You can't fix my heart girl you been tried
I ain't do none of that shit girl yo friends lied
Is it bad that I wish some of yo friends died
Evil
I put that on my soul girl I ain't evil
I just ride in a Demon but I ain't evil
Sometimes I have nightmares and they evil
Don't try to tell me you want better
Girl when you know I'm better
You could leave girl I let ya
When you leave I could bet ya
I'm the best you ever had and that's for certain
Girl when you leave just tell me what was your purpose
