

On My Ass

Toosii

Yo
Niggas don't care about us man
They don't wanna see you prevail
No none of that you dig
Shit crazy

I was on my ass just trynna lay up
Couple niggas up in my face telling me like stay up
But how the hell I'm down and they say stay up
That's the place they want me to be but I just can't cause
I see visions of a milly in my safe
Place to park the wraith
Cop bout 4 of them new raris
So my boys could race
Man I know that you don't love me
Why you in my face
If it wasn't for this music
I'd prolly be outta space
Teachers telling me like you won't be nobody
Ever since bout junior high I felt I ain't need nobody
Daddy won't dead or in jail but he ain't see nobody
But a part of him still in my heart cause I know he still love me
Tell me nothing
Lot of niggas bluffing ion need that
So you say you'd ride for me
Ok well lemme see that
Love up in my heart for broskie broskie
I know he strapped
Jakes don't really like us and it's really just cause we black
Hood still full of youngins with no guidance they don't see that
I know I got ridas they ain't hiding they need feed back
Can't believe we hit the plug
And he still ain't get his keys back
Lot of niggas want me gone ain't going
So my heat packed

I was on my ass just trynna lay up
Couple niggas up in my face telling me like stay up
But how the hell I'm down and they say stay up
That's the place they want me to be but I just can't cause

I was on my ass just trynna lay up
Couple niggas up in my face telling me like stay up
But how the hell I'm down and they say stay up
That's the place they want me to be but I just can't cause

Mama need a house
She been looking for a spouse
All that pain she working out
It ain't the same ain't working out an
Granny still been hitting me just saying she missing pops
My own fam done kilt that nigga I ain't complain they doing life
Wish
Death upon no man but I mean damn
I should killem
Old homies been hitting me wondering when we chilling
Ain't reply to they text or they calls so they in they feelings

Where the fuck was you at when I needed you you was missing
Now y'all all on my ass cause y'all see that a nigga gifted
I still up it and I'm clutching so don't you ever get it twisted
All I'm sayin is when I needed you
You ain't listen
Like we ain't use to be with each other and kick it pimpin

I was on my ass just trynna lay up
Couple niggas up in my face telling me like stay up
But how the hell I'm down and they say stay up
That's the place they want me to be but I just can't cause

I was on my ass just trynna lay up
Couple niggas up in my face telling me like stay up
But how the hell I'm down and they say stay up
That's the place they want me to be but I just can't cause
