

# Only Me

Toosii

I done made it out the trenches, I got far from the streets  
If you love me, gotta love me, put your all into me  
Know I pray to God every day, the devil calling on me  
To them boys on the other side, I wish they all be deceased  
Know they gon' fall when we creep  
I done did too much, still leaving blood, it's all in the streets  
Speeding way too fast my homie Wockhardt all in seats  
Told her when we make love catch it can't be all in the sheets

They ain't never gon' understand it  
Shit I go through and  
Sometimes I sit back, I gotta kick my pimpin'  
And I mean but  
For the most, I'ma always be me  
When it rain, it rain  
And when it leave a stain, it leave a stain  
You know what it is

Gotta leash around my neck, I can't go far from the beats  
When I'm laying on my back, it always be harder to see  
Gotta get up off my ass and go be all I can be  
So don't call me for no shows if you gon' call me for free  
And my brother's case got fucked up by his co-defendant  
They was going door to door tryna act like they Jehovah Witness  
School time, would've thought a nigga retired, they was paying pension  
I was on the football team, still ain't keep me from detention  
If you love me, I just feel like you gotta show me  
I done been around too many phonies  
True, I get lonely  
Don't do me Tony

It's only  
It's only  
It's only  
It's only  
It's only  
It's only  
It's only me

Aha, oh it's only you now  
But last night when you eating the fuck out my ass, nigga you weren't saying  
that shit  
Laid the fuck up like a bitch but it's all good  
Speaking of bitches, your baby mom, real insecure looking at my stories  
Niggas really ain't shit but it's good  
Held this whole shit down  
I mean, you think you can fly me out?  
You really think you met your match?  
You have no idea  
This shit's chess not checkers  
You'll see
