

Push Start

Toosii

Aye yo Pluto, you going brazy

Yeah, oh

This ain't a Hellcat this a Demon
My cars push start, I be leavin' the lot
I put market on the wheels
This forgi the rims right after I'm leavin' the lot

Say he got it I seen what he got
Icy young nigga they see that he hot
I just might slap a cutter on the tail pipes
A hunnid I'm runnin' thru red lights

They should've never tried to call me out
Now it's too late to try to call me in
Ion wear a heart for two years straight
And all a nigga wanted was to win

Man these are VVS not CZ's
I just put a hunnid on my wrist
You don't hear n'un but skrt by
I won't let up whenever I'm spinnin' the benz

I won't let up whenever I'm spinnin' the benz
She won't fuck me, I'm fuckin' her friend
I got 'em side by side givin' em both dick
Like they siamese twins

I just want a Glock ion care bout the gym
But this shit here gym for
Tell them 10 piece for a feature a video too
Then a nigga need 10 more, aye

And I got gang with me, he tryinna kick door
Know this pole turn a nigga six-four
If I wanna hit it them niggas gon' get low
Creep on 'em I'm solid, gon tip toe

And I let the base ride when I'm in it
I go 'til I'm finished, I'm runnin' to win it (you digg)
Never say never you told me I can't fuck
I got rich she won't play with the kid

This ain't a Hellcat this a Demon
My cars push start, I be leavin' the lot
I put market on the wheels
This forgi the rims right after I'm leavin' the lot

Say he got it I seen what he got
Icy young nigga they see that he hot
I just might slap a cutter on the tail pipes
A hunnid I'm runnin' thru red lights

She won't play with the kid
Keep an ak with the kid
I got rich she wanna lay the kid

We won't spray him when he's with his child
So he better stay with the kid

He better stay with the kid
I get mad then I'm poppin' this lid
I drop the top and I'm droppin them bitch
I know she like when I'm poppin' my shit

I know she like when I'm poppin my shit, pass the Glocks to the bitch
I bought a watch it won't tick
I bought her all of that shit, if she leaves me it's cool
I'm used to droppin a bitch

Bought a new AP freezer time piece now
Ion got time for a bitch
But we seventy deep down on the e way
But I gotta still ride with a stick

This ain't a Hellcat this a Demon
My cars push start, I be leavin' the lot
I put market on the wheels
This forgi the rims right after I'm leavin' the lot

Say he got it I seen what he gpt
Icy young nigga they see that he hot
I just might slap a cutter on the tail pipes
A hunnid I'm runnin' thru red lights
