

Spotless Mind

Toosii

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out
Boy, I really think I need you right now
Need you right now

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out
Boy, I really think I need you right now
Need you right now

Look, spotless mind
You prettiest when you don't think
Cause that's when you don't try to be pretty
But
Pretty as can be
You rock expensive clothes
Cause you feel like your soul cheap
And you haven't found closure
So you hide behind clothing
Princess, I know you better
I even know how you love peanut brittle
When your favorite candy is Starbursts
But you hate all the skittles
Cute right
Let's have a date under the moonlight
And let sparks fly
As if this is the Fourth of July
I
Wanna thank you
If I don't thank you enough
For letting me in your heart
Just like you let me in your guts
Thanks for that Aquafina
But your demeanor drive me nuts
See that lil pussy got some power
And that's my reason for trust
Was that a bit offensive
I wrote that bar hoping you reminiscing
You say I don't listen
Well call me
Watch I'll be comprehensive
Yeah
You say I don't listen
Well call me
Watch I'll be comprehensive

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out

Boy, I really think I need you right now
Need you right now

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out
Boy, I really think I need you right now
Need you right now

Know it feel good
When you got dank up in yo swisher
But see blinded, dishonest, and undermine
Was your picture
Of love
And you think I need that
But then see, once I hit yo phone
You started giving feedback
And what you say
You just told me to move on
And that's exactly what I did
Because, see, baby girl I'm strong
And you ain't really want me
So you start to move along
But in the future met somebody
Who happened to do you wrong
And that's Karma and about yo nigga
Baby girl I get the memo
See he painted the picture
That you can't be sentimental
You listen to the people
Hoping you'll seek
Better info
When truly
The music was the place you should use as your temple
Like
I feel your pain
Been through the same
No need to cry
You beautiful and unusual
And that's the reason why
You gotta stay on yo grind
And keep money on yo mind
Cause like a diamond in the rough
You tough
And you gone shine
Now forever ain't forever
So just rock me like a sweater
Cause if we depart again
Then back together
I think never
So I hope that all I'm saying
Will help you choose to be clever
And put a smile up on yo face
Cause baby girl that is my pleasure
Like
Forgive me
I'm tryna right my wrongs
It's so much
Pain, baby girl
When I write these songs
You could picture

Like Kodak
Better yet like Protax
But you think all I care for
Is bout these jawns
See this world corrupted
I think that they in cahoots
They say the darker the berry
That mean the sweeter the juice
Like Pac
I say the darker the flesh
Deeper the roots
But I guess that when you gifted
Then you can't seek for the truth

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out
Boy, I really think I need you right now
Need you right now

Late nights
I laid on the roof
And watched the light house
Thinking bout the times
I knocked your lights out
Boy, I really think I need you right now
Need you right now
