Toosii

Go figure  
You got a nigga  
Just when I thought I'm the one who was making you happy  
Girl, I did all I can if you ask me  
Triggered  
Girl, you so triggered  
Just from my past should've knew that this shit wasn't lasting  
Nowadays can't get shit without asking you  
Go... out to the club every night with yo friends I don't trip,  
long as you know  
What you got here right now at home, I don't trip, long as you  
know  
That's reason why I move with my friends and the reason I got 2  
phones  
Maybe even better that I know that you triggered I don't think  
that dude know  
It ain't much that he do know  
He don't even really know how to hit it right  
But I promise, I get home, imma get it right  
Girl I promise, I get home, imma get it right  
No more picking up the phone middle of the night  
I just wanna be alone, ain't no need to fight  
Said no need to pick a bone, knowing you the type  
Take down  
I spend all of my time and you said you need a break now  
You stopped picking up the phone but you saying that I'm fake n  
ow  
He don't lay it down like I do but you saying that it's hate no  
w  
You right, I'm triggered
