

WAIT FOR U

Toosii

Wait for you, for you
Maybe I should've waited for you (For you)
I will wait for you (Maybe I should've waited for you)
Yeah
Maybe I should've waited for you
Maybe you ain't ready yet (Higher)
If I told you, I wish I took time before we met (Higher-er-er-er)
'Member high school, you was fine, and now, you finer than that
So, damn, I never thought there would come a time when we would
have sex, huh (ATL Jacob, ATL Jacob)

You got some things to work on
All that talk in Instagram, something you love to lurk on
Got my baby in your belly, but Lord knows this my first one
I can't believe I'm finna have my first, uh
So, let's just hope that we stay together, 'cause forever ain't
forever
And I've changed a lot since the day that I met ya
It never was the catch, baby, I let you, I let you be
And ever since, I feel like you been testin' me (World was ending)
Yeah, love you as much as my mama (Would you cry or would you try to get me?)
Deletin' our pictures of my IG, I'm not one for the drama (Tell me now, I want you to be clear, yeah)
Just wanna separate the real 'cause the world been so fake (Tell me now, I need you to be clear, yeah)
Who would've ever thought that trip to the movies be our last date? (I will wait for you)
Just fuckin' off, I'm just kiddin' (For you)
But, I got some things to say, feel like some lies have been hittin' (I will wait for you)
I ain't messin' with no girls whenever I be on the road (I will wait for you)
But you stress me out so much
Sometimes, I don't like to be home (I will wait for you)
I did some things in the past, but I'm hopin' that we last (For you)
I would be a great father, I won't be nothin' like my dad (I will wait for you)
How can somebody you give the world to be so ungrateful? (I will wait for you)
They only see when I love you, not when I hate you (Ooh-ooh)

That's life
Everyday I feel like we goin' farther and farther apart
I don't— I don't never want this to end

(Will wait for you, for you, I will wait for you)
I love you to, you know, infinity and beyond, past the moon (I
will wait for you, I will wait for you)
I'll give you my heart (I will wait for you, I will wait for yo
u)
I'll give you the shirt off my back
I'll die for you (I will wait for you, for you)
I'll never let nobody hurt you (I will wait for you, I will wai
t for you)
But maybe I should've waited for you
