

## Adenium

### Toothgrinder

I saw your face  
Deep down, deep down, underground  
Birds sing, embrace  
Won't you sooth my pain like a needle to the vein

Bring me rain  
Pouring down on me, pouring down on me  
My mind, desert road  
Gimme Shelter rips through the radio  
Shelter, with screaming crows  
Won't you sooth my pain like a phoenix to a blaze

Bring me rain  
Pouring down on me, pouring down on me  
Take my pain  
I wanna feel alive, I wanna feel alive again  
Raw palms, flawed tongue  
Heaving, pleading, believing you were god

Bring me rain  
Pouring down on me, pouring down on me  
Take my pain  
I wanna feel alive, I wanna feel alive again
