Blue

Toothgrinder

Lay stray to abandon punishment
Now effervescently feed the design
Bound naked and force-fed by government
Familiarity rapes the sublime

Don't lose grip just yet
One more sip, forget

It ain't nothing but a goddamn monster, harboring
Dance a little closer
It ain't nothing but a god damn monster, hold your breath

Maybe we will find the fire inside (we will find the fire, we will find the fire)
Maybe we will find the fire inside (the tide)

Fuck!

It ain't nothing but a god damn monster, harboring
Dance a little closer
It ain't nothing but a god damn monster
Motherfucker hold your breath right now

Every step you ever take, I will always
I'll be ahead
Now every step you ever take, I will always
I'll be ahead

Maybe we will find the fire inside (we will find the fire, we will find the fire)
Maybe we will find the fire inside (the tide)

It's nothing but a demon, in disguise (these monsters, these monsters)
These tiny bastards with baby blue eyes
These monsters, they bleed like you and I

It ain't nothing but a god damn monster, harboring
Dance a little closer
It ain't nothing but a god damn monster
Motherfucker hold your breath right now (now, right now, yeah)

Another circle around, treading over the same old town tonight
Another circle around, digging, digging the same old ground

This trek is all we really have
Another mile to the top
These mountains filled with peaks
I don't know why I just can't stop

Maybe we will find the fire inside (we will find the fire, we will find the fire)
Maybe we will find the fire inside (the tide)

Fuck!

Dead digging the same old ground
Dead digging the same old ground tonight

Bound naked and force-fed by government
Familiarity rapes the sublime

You!
