

Vagabond

Toothgrinder

You know I want you dead
You took away my best years
I thought you were my friend
If it wasn't for the late nights, if it wasn't for the...

Go your own way
Don't hesitate
I don't have all day
That's what I'd say
You know what goes around comes around (You know)
Cause I know (You know I want you dead)
You know what goes around comes around (You know)
Cause I know

You know I want you dead
You took away my best years
I thought you were my friend
If it wasn't for the late nights, if it wasn't for the...

I sang it with soul
I got in the mood
My entire life, I've been fucked by rock and roll

You know I want you dead
You took away my best years
I thought you were my friend
If it wasn't for the late nights, if it wasn't for the...
Yeah - If it wasn't for the...
Yeah - If it wasn't for the...

You know what goes around comes around (You know)
Cause I know (You know I want you dead)
You know what goes around comes around (You know)
Cause I know

You know I want you dead
You took away my best years
I thought you were my friend
If it wasn't for the late nights, if it wasn't for the...
Yeah - If it wasn't for the...
Yeah - If it wasn't for the...
